

M MarkinBOX®

DOT PEEN ENGRAVERS - ELECTRIC UNIT - BENCH-TOP OR PORTABLE

MB8020

MARKING AREA: 80MM WIDE X 20MM HIGH

UNIT DESCRIPTION

The unit is easy to place onto large jobs and also suitable for marking smaller parts. It is also suitable for marking cylinders.

We highly recommend the magnetic foot base in applications where the job surface is flat, as it keeps the unit 100% secure during marking, preventing movement (operator error) and/or allows for hands-free marking.

PROGRAMMING

Connect to a PC via WiFi, USB or Ethernet Network or integrate into automation system with D.I/O, Ethernet or PLC.

Advanced software is easy to create simple and complex programs & templates for all types of jobs.

ADDITIONAL ACCESSORY OPTIONS
